Location: Lusaka, Zambia

PROFESSIONAL SUMMARY

Motivated Computer Science graduant with practical experience in software development, artificial intelligence, Internet of Things (IoT), technical support, and digital transformation initiatives. Skilled in designing and developing software applications, AI-powered systems, and connected device solutions using modern technologies. Experienced in delivering ICT training, providing technical support, coordinating technology-focused projects, and collaborating with multidisciplinary teams. Passionate about leveraging technology to solve real-world problems and improve accessibility through innovative solutions.

CORE COMPETENCIES

- Software Development
- Artificial Intelligence & Machine Learning
- Internet of Things (IoT)
- Computer Vision
- Mobile Application Development
- Database Design & Management
- Technical Support & Troubleshooting
- Cloud Computing
- Project Coordination
- Public Speaking & Communication
- ICT Training & Capacity Building
- Leadership & Team Collaboration

TECHNICAL SKILLS

Programming Languages

- Python
- Java
- JavaScript
- PHP
- SQL
- C++

Frameworks & Technologies

- Flutter
- Flask
- Django

- HTML5
- CSS3
- WordPress
- REST APIs

Artificial Intelligence & Machine Learning

- TensorFlow Lite
- YOLO Object Detection
- Computer Vision
- Speech Recognition (Vosk)
- Roboflow
- AI Model Training and Deployment

IoT & Embedded Systems

- ESP32
- MQTT
- Smart Home Automation
- Relay Control Systems
- Sensor Integration

Databases

- MySQL
- SQL Database Design
- Database Administration

Tools & Platforms

- Git
- GitHub
- VS Code
- PlatformIO
- Android Studio
- MQTTX
- Mosquitto
- Linux Fundamentals

PROFESSIONAL EXPERIENCE

ICT Intern

Levy Mwanawasa Medical University

January 2026 – Present

- Provided technical support to university staff and students.
- Assisted with troubleshooting software, hardware, and network-related issues.
- Delivered four introductory ICT training sessions to students and staff.
- Trained staff members on institutional systems and digital tools.
- Supported day-to-day ICT operations and digital service delivery.

Technology Support Assistant (Remote)
FASELTD PLAZA
February – Present

- Provided technical support and troubleshooting services.
- Assisted with website and digital platform management.
- Supported technology adoption and user training initiatives.
- Contributed to the maintenance and improvement of digital systems.

Technical Support Volunteer:
ECSACONM Annual General Meeting
Levy Mwanawasa Medical University

- Provided technical support during conference sessions and presentations.
- Assisted in setting up and maintaining ICT equipment.
- Ensured smooth operation of digital systems throughout the event.

PROJECTS:

Uka Smart Home System
AI-Powered Smart Home System for Accessibility

Technologies: Flutter, Python, MQTT, ESP32, TensorFlow Lite, Vosk, Computer Vision

- Designed and developed an AI-powered smart home system focused on improving accessibility for visually impaired users.
- Implemented offline voice control functionality using speech recognition technologies.
- Developed MQTT-based communication between software services and IoT devices.
- Integrated computer vision capabilities for object detection and environmental awareness.
- Designed accessible user interfaces prioritizing simplicity and usability.
- Managed system architecture, development, testing, and deployment activities.

Clinic Database Management System

Technologies: HTML, CSS, JavaScript, PHP, SQL

- Developed a database-driven clinic management system for patient record management.
- Implemented CRUD operations and database integration.
- Designed user-friendly interfaces for efficient data management.

Loan Tracking Application

Technologies: Flutter, Dart, Firebase Firestore, Firebase Authentication, Provider, PDF, Git

- Developed a loan tracking solution for managing client records and repayments.
- Implemented database functionality and reporting features.
- Improved record management and tracking processes.

Hermosa Fashion Website

Technologies: WordPress

- Developed and customized a fashion-focused website.
- Managed content, layouts, and website functionality.
- Implemented responsive design principles for improved user experience.

FASE Plaza Management Platform

Technologies: PHP, WordPress, JavaScript, HTML5, CSS3, MySQL, Git

- Developed and maintained a custom WordPress platform for FASE Plaza, implementing bespoke functionality beyond standard WordPress capabilities.
- Designed and implemented a dynamic content promotion engine to automatically surface events, dialogues, reports, and announcements across the website.
- Built role-based member dashboards, authentication workflows, and membership management features for multiple user tiers.
- Developed custom event management, booking, and content publishing modules to improve information accessibility and user engagement.
- Optimized responsive UI components and enhanced overall user experience across desktop and mobile devices.

LEADERSHIP EXPERIENCE**Project Coordinator****ICTAZ Mulungushi University Chapter**

- Coordinated chapter activities and student engagement initiatives.
- Assisted in planning and execution of technology-focused events.
- Collaborated with students and industry stakeholders to support chapter objectives.

Master of Ceremonies**ICTAZ Mulungushi University Chapter Inaugural Gala Night**

- Served as Master of Ceremonies during the inaugural gala event.
- Facilitated event proceedings and stakeholder engagement.
- Demonstrated strong public speaking and communication skills.

CERTIFICATIONS**Huawei ICT Academy**

- Huawei Artificial Intelligence Certification
- Huawei Cloud Computing Certification

Kaggle

- Artificial Intelligence Certificate

EDUCATION

Bachelor of Science in Computer Science
Mulungushi University
Expected Graduation: 30 October 2026

Secondary Education
Munali Boys Secondary School

LANGUAGES

- English
- Bemba
- Nyanja
